Transfer of Property by a Partnership to a Taxable Canadian Corporation

This form is to be used by any partnership (the transferor) and any taxable Canadian corporation (the transferee) to which the partnership has transferred property for consideration that includes a share of the transferee's capital stock. An election in respect of the transfer pursuant to subsection 85(2) of the Income Tax Act (ITA) must have been made with the Canada Revenue Agency (CRA) by means of form T2058, Election on Disposition of Property by a Partnership to a Taxable Canadian Corporation. Note that, if the conditions listed in Table 2 (see page 6) are met, a transferor and transferee (the parties) can agree on an amount that is different from the one in form T2058.

This form must also be completed in order to make:

Identification

- a **rollover application** (for Québec income tax purposes only) if, by reason of subsection 13(21.2) of the ITA, the election under subsection 85(2) of the ITA cannot be made; or
- an application to the Minister to amend a previous TP-529-V form,
 - the parties had agreed on an amount that was the same as the one in form T2058 but wish to agree on a different amount;

- the parties had agreed on an amount that was different from the one in form T2058 and wish to cancel or change the amount; or
- the parties wish to change the amount they agreed on as part of a rollover application for Québec income tax purposes only.

The conditions in Table 2 (see page 6) must be met in order for either application mentioned above to be made.

Important

File this form and the required documents (see page 5) separately from any income tax return. Only the person authorized to sign for the transferor can file this form for its members and, if applicable, the members of any partnership that is a member.

Notes

- 1. Enter the following in column C:
 - for capital property other than depreciable property, the adjusted cost base (it is subject to adjustments under sections 255 and 257 of the Taxation Act):
 - for **depreciable property**, the lesser of the following:
 - the capital cost of the property, or
 - the UCC of all the property in that class immediately before the transfer:
 - for **inventory**, **securities and debt obligations**, the cost amount.

If the transferred property is class 14.1 property acquired before January 1, 2017, contact us.

- The agreed amount must generally be the same as the amount in form T2058.
 However, if the parties file an application to the Minister or another application for which you are completing Part 2, you can enter a different amount, calculated while taking into account the limits in columns B, C and D. The agreed amount must therefore be:
 - equal to or greater than:
 - the lesser of the amounts in columns B and C, except in the case of mining property, and
 - the amount in column D; and
 - less than or equal to the amount in column B.

If the transferred property is depreciable property and, on the 30th day following the transfer, the transferor or a related person is its owner or has the right to acquire it (except in the case of a right that exists only as a guarantee and arises from a hypothec, a sale contract or similar title), the agreed amount under the rules above must be equal to or less than the lesser of the following:

- the capital cost of the property; or
- the UCC of the applicable class multiplied by the ratio between the FMV of the property and the FMV of all the property in that class.
- 3. The transfer of the property by the transferor to the transferee constitutes a disposition of property, and the agreed amount (column E) represents both the proceeds of disposition for the transferor and the capital cost of the property for the transferee. Depending on the type of property, the transferor must report all amounts entered in column F as a capital gain or as income. For depreciable property, part of the amount can be reported as a capital gain and part as business or property income.

If you entered 0 in column F because the amount is negative, the amount may constitute a capital loss or, in the case of depreciable property, a terminal loss.

For more on the tax treatment of the disposition of property, see guide IN-120-V, Capital Gains and Losses.
